Plucking wax 706

Article number: D10083

General Information

Origin	Plucking waxes are wax mixtures that are customised for the processing of poultry - in particular the removal of feathers and fluff. The poultry is dipped into the carefully heated wax. After cooling, the wax and feathers can be removed from the poultry. Plucking waxes can be filtered and reused after use.
Appearance	Yellowish wax plates
Packaging	5 kg sheets in packages of 25 kg each, welded on pallets of 1000 kg
Shelf life	24 months
Applications	Poultry plucking
Compliance	Regulation EU 1935/2004; Regulation EU 10/2011; Regulation EU 2023/06; Regulation EU 1333/2008; Regulation EU 1169/2011

Specification Values

Parameter	Value
Congealing point	54 - 58 °C
Needle Penetration (25°C)	13 - 20 dmm
Viscosity (70°C)	5 - 10 cPs / mPas
Viscosity (100°C)	-
Physical State (25°C)	Solid
Colour	Max. 1,5
Odour	Max. 1

Additional Information

All details are based on our current state of knowledge and are not transferable to other products. They do not constitute a warranty or guarantee of specific properties or suitability for particular applications. Each use of our supplied products must be tested in the respective application and checked for any existing property rights. Color and form of the product may slightly vary within a production batch due to the manufacturing process.
