## Plucking wax 706

Article number: D10083

### General Information

|              |                                                                                                                                                                                                                                                                                                                     |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Origin       | Plucking waxes are wax mixtures that are customised for the processing of poultry - in particular the removal of feathers and fluff. The poultry is dipped into the carefully heated wax. After cooling, the wax and feathers can be removed from the poultry. Plucking waxes can be filtered and reused after use. |
| Appearance   | Yellowish wax plates                                                                                                                                                                                                                                                                                                |
| Packaging    | 5 kg sheets in packages of 25 kg each, welded on pallets of 1000 kg                                                                                                                                                                                                                                                 |
| Shelf life   | 24 months                                                                                                                                                                                                                                                                                                           |
| Applications | Poultry plucking                                                                                                                                                                                                                                                                                                    |
| Compliance   | Regulation EU 1935/2004; Regulation EU 10/2011; Regulation EU 2023/06; Regulation EU 1333/2008; Regulation EU 1169/2011                                                                                                                                                                                             |

### Specification Values

| Parameter                 | Value             |
|---------------------------|-------------------|
| Congealing point          | 53 – 58 °C        |
| Needle Penetration (25°C) | 15 – 25 dmm       |
| Viscosity (70°C)          | -                 |
| Viscosity (100°C)         | 6 – 15 cPs / mPas |
| Physical State (25°C)     | Solid             |
| Colour                    | Max. 2            |
| Odour                     | Max. 1            |

### Additional Information

All details are based on our current state of knowledge and are not transferable to other products. They do not constitute a warranty or guarantee of specific properties or suitability for particular applications. Each use of our supplied products must be tested in the respective application and checked for any existing property rights. Color and form of the product may slightly vary within a production batch due to the manufacturing process.

|                                                                                     |                                                                                                                                                                                                           |                                                                                                                                                   |                                                                                          |
